

Employee Project Upload Form

A simple, responsive web form that allows employees to upload their project details after verifying their name, email, and mobile number.

Built using HTML, CSS, and JavaScript, this form includes real-time validation and interactive feedback.

Demo

You can view and test the form live by opening the index.html file in your browser.

Project Structure

Employee-project-upload/

|

├── index.html # Main form page (HTML, CSS, JS embedded)

└── README.md # Project documentation

Features

Form Validation

Name: Allows only alphabets and spaces

Email: Must follow standard email format

Mobile: Must be a valid 10-digit number

✅ Live Feedback

Displays inline error messages

Button remains disabled until all inputs are valid

✅ Responsive Design

Mobile-friendly layout with clean UI

Uses minimal CSS for fast load times

✅ User Interaction

Prevents form submission if any field is invalid

Shows success alert once all details are verified

🔧 Technologies Used

HTML5 – Structure

CSS3 – Styling & layout

JavaScript (ES6) – Validation logic and interactivity

How to Use

Clone the repository

Git clone <https://github.com/<your-username>/employee-project-upload.git>

Navigate to the project folder

Cd employee-project-upload

Open the HTML file

Open index.html

Or simply double-click the file to open it in your browser.

Validation Rules

Field	Rule	Example
-------	------	---------

Name	Only letters and spaces allowed	John Doe
------	---------------------------------	----------

Email	Must be valid email format	john@example.com
-------	----------------------------	--

Mobile	10 digits only (no spaces/dashes)	9876543210
--------	-----------------------------------	------------

 Screenshot (Optional)

You can add a screenshot here after testing the project.
